### **Other regulations**

In the tournament the Mölkky-games are thrown behind “Mölkkaari”, a wooden stick (size 51 cm x 25cm). The throwing must happen inside the Mölkkaari and the player will leave it backwards. If player’s foot is on the Mölkkaari while throwing or the player leaves it to the side or to front, the throw is not counted and is marked as Step Failure. Inside the Mölkkaari player has about 20 sec time to throw. The Team can discuss on the following throw also 20 sec. It means that one throw can take 40 sec. When the Team has 37 or more points, Step Failure is judged so that team’s points drop to 25. All styles of throwing are allowed.

If the whole team (3 players) doesn’t come to the game field within five minutes of the beginning of the starting time, the whole team is removed from the game. That decision is made by the head referee. Times stated in the competition program from the continuation of playoffs forward, are inexact. When the field announcement informs the time for the game, that information must be followed exactly. The whole team must enter the game field within 5 minutes from the starting time. Failing to do so could mean, in the worst case, that the team is excluded from the games. That decision is made by the head judges. Teams are advised to stay close proximity to game fields so they can hear the field announcement. Players that are taking part in an ongoing game can not leave the playing field without the referees permission. Players leaving without permission are given a yellow card and if the offence is repeated they will be given a red card.

The games are played with official Mölkky-games made by Tuoterengas -company.

Everyone rooting for each other creates a good atmosphere for the games!
